Safety · Health · Environment Policy

SHE (Safety, Health and Environment) represents the core value of the company. SHE policy will be the underlying guide to all management decisions, ensuring necessary focus and resourcing to all activities, guided by a robust management system to be complied with by all our employees, contractors, and visitors.

Action

1. APPROTIUM's highest priority is to establish a safe working environment and to ensure protection of its employees and its contractors from risks arising from business operations.
2. APPROTIUM commits to providing sufficient resources to proactively eliminate and address potential safety risks of the workplace via a robust SHE management system. Where applicable, public safety shall also be considered for proper measures to be taken.
3. APPROTIUM establishes SHE goals & objectives and continuously monitors and adjusts its performance in order to achieve its goals.
4. APPROTIUM ensures compliance with all applicable SHE related legislations and other SHE requirements.
5. APPROTIUM proactively and continuously identifies hazards reported by employees and/or contractors and implements corrective actions to improve. The corrective measures and any revisions are then properly communicated via training.
6. APPROTIUM applies this SHE policy to all business partners and sub-contractors.
7. All employees of APPROTIUM shall be responsible for executing his or her task in a safe manner and complying with all applicable requirements and guidelines.
